THERMAL TEMPERATURE SCREENING SOLUTIONS

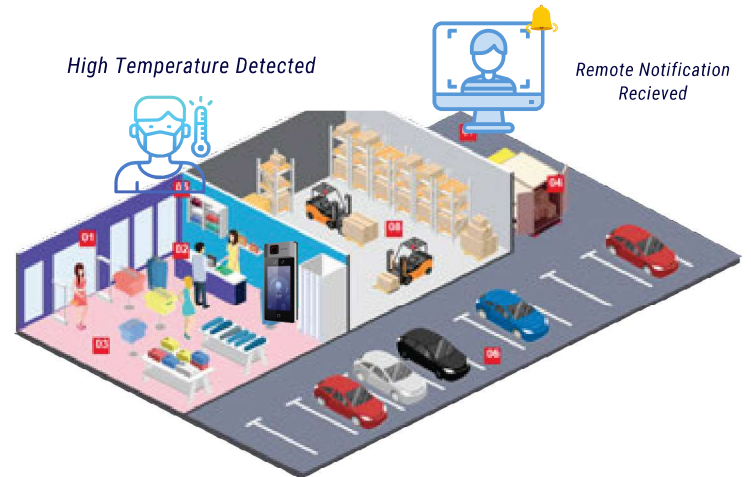

Grocery Stores

Hikvision offers **unobtrusive** and **scalable** solutions for temperature screening, distance monitoring, and mask use for employees and customers.

Our solutions allow you to:

- Monitor workforce health and provide early detection of symptoms
- Monitor social distancing and protective equipment
- Efficiently implement changes to policies and procedures
- Provide Temperature Checks
- Remotely manage the system through our app or client software
- People Counting (in and out) to manage maximum occupancy

Highly Accurate Thermal and Optical Cameras includes Smart Features such as an Audible "No Mask Warning" and "Social Distancing Detection"
